BUILD YOUR SYSTEM

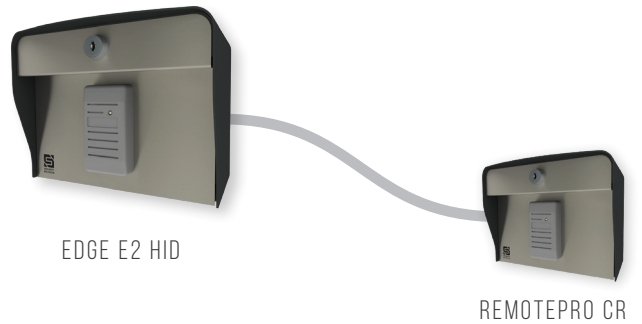

Connect Edge E1 with up to 2 RemotePro units

- 2 available Wiegand inputs
- 26-bit and SBI Flex 64-bit Wiegand Protocol

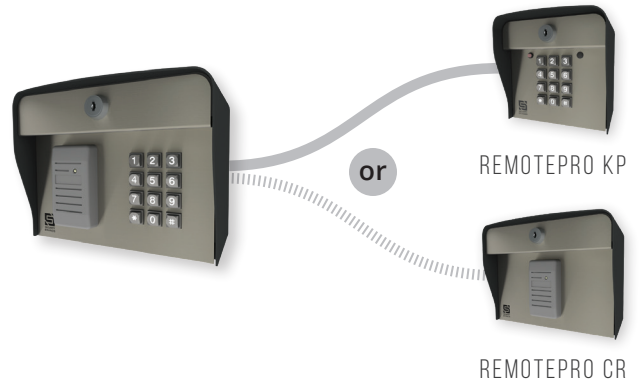

Connect Edge E2 with 1 RemotePro unit

- 1 available Wiegand input
- 26-bit and SBI Flex 64-bit Wiegand Protocol

Connect Edge E3 with 1 RemotePro unit

- 1 available Wiegand input
- 26-bit and SBI Flex 64-bit Wiegand Protocol

SBI FLEX™ 64-BIT WIEGAND PROTOCOL

Our proprietary 64-bit Wiegand protocol offers maximum flexibility and extreme customization, allowing 4- to 11-digit keypad codes with a 3-digit facility code. This groundbreaking protocol offers the administrator up to 100 billion codes.

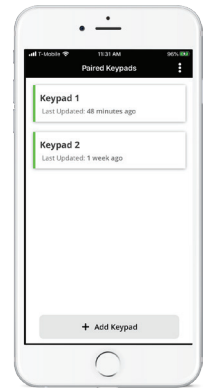

In addition to SBI Flex, our Edge family of smart products are compatible with the industry-standard 26-bit Wiegand protocol, allowing you to connect our **RemotePro** family of products as well as most other Wiegand devices on the market.

EDGE SMART KEYPAD APP

Our smart keypads and card readers are managed through an incredibly simple and easy-to-use mobile administrator app, available on Apple and Android smartphones.

APP FEATURES

- Full access control management
- Relay control (open, latch/unlatch)
- Limited-use keypad codes with use, 7-day, and 365-day restrictions
- 7-day, 365-day, holiday, and special event timers (separate timers for each relay)
- Random code generator
- Event reports with CSV export
- Event input configuration
- Digital input configuration
- Quick cloning for multiple-unit setups

GET THE EDGE SMART KEYPAD APP
