

CANTILEVER ROLLERS

K-CRP SERIES

ROLLERS FOR CANTILEVER SLIDE GATES

MODELS

K-CRPR6 (top)

fits 2-3/8" round gate frames and 4" round posts

K-CRPS22 (bottom)

fits 2" square gate frames and 4" square posts

FEATURES

- Magnets on bases for time-saving installation
- UHMW-polyethylene graphite-impregnated wheels
- Long-lasting sealed roller bearings
- Zinc-plated steel axles
- Zinc-coated steel bases and mounting hardware
- Tough UV-resistant protective covers included
- Rated up to 2,000 pounds when using 4 rollers*

THE PERFECT FIT EVERY TIME

Whether you're building a gate with round stock or square, we have the roller for you. And magnets on the bases make install easy.

SMOOTH, QUIET, AND LONG LASTING

Advanced materials make our wheels extra smooth and quiet, and sealed roller bearings provide long life with very little maintenance.
